

WYMIAR PO MONTAŻU

WYMIAR TECHNICZNY

A wall panel in a delicate shade of gray, which will become a beautiful decoration, piercing the eyes of all your guests. Made of PolyFace material, which is characterized by water resistance, it is perfect for bathrooms and rooms in contact with moisture. Lamelli has the patented ScratchShield technology, consisting in maximum hardening of the surface. Our product was created with thought of a beautiful visual effect, therefore it has an optimal length of 270 cm, which allows for installation in one fragment. Thanks to this, the pattern remains beautiful looks, without the need to create joints between individual panels.

Easy, quick and clean installation using **Mardom FixPro** or **Mardom Max adhesive**.

Possibility to finish panels with dedicated ends - **left** and **right**.

The product is entirely made in Poland.

Length: 270 cm

Width: 12 cm
